

# Aquatic Glassel!

Introducing *Aquatic Glassel!*  
A magical product that will turn  
your fireplace into a showplace.

A mesmerizing fire in your fire pit or fireplace has always been an enjoyable moment. Now you too can enjoy a truly mesmerizing fire by Aquatic Glassel in your home or backyard. Welcome to the mesmerizing world of Aquatic Glassel. Create a stunning showplace whether your décor is rustic, eclectic, contemporary, classic or somewhere in between. Aquatic Glassel provides uncompromised versatility with almost any décor.

Aquatic Glassel also provides exceptional sparkling beauty in your outdoor fire pit. Catch the brilliant reflection of the midday sun, or create a shimmering reflection of magnificent flames in the evening. Aquatic Glassel literally looks like fire on ice as it dances and flickers. Anyone can install this themselves or have it installed by a professional at your local retailer. Our products are available throughout the United States and soon available to the entire World! This product is so popular because it is truly a cleaner burning fire without the mess or soot created by a traditional fireplace. There is no soot, no ash, and no smoke. It will not degrade or discolor, nor will it produce any by-products, and is designed to last a lifetime. Aquatic Glassel is a specially formulated, processed and tempered glass product. As there are no popping cinders, the fireplace screens and glass doors may be removed, which makes the magical beauty of Aquatic Glassel even more attractive.

Our patented process is what makes our product safe, unique and second to none. Don't be fooled by overly expensive imitations.

Aquatic Glassel comes in hundreds of elegant colors to match the décor of your home and furnishings. The fireplace of the future is here.

We offer a variety of colors to suit the needs of almost every discriminating consumer. We currently offer more than 400 products and we are adding new product. We currently also have dozens of beautifully reflective colors from which to choose from as well as a selection of burners to help create your distinctive atmosphere. These transparent colors can be interchanged if desired, to accommodate the changing seasons. Aquatic Glassel burns cleaner and more efficiently than conventional gas logs. This variety allows for endless possibilities of combinations.

Aquatic Glassel is a direct replacement for gas logs as a decorative and high heating component used in natural gas or wood burning fireplaces and fire pits.

THE GLASS PIECES ARE NOT SHARP, which allows you to scoop them up with your hand and change them easily.

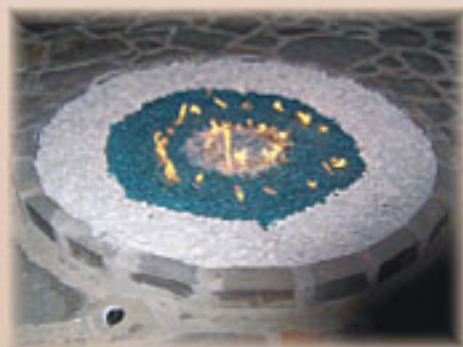

# See the amazing difference that Aquatic Glassel can make!

## Before

## After
